

CARSON WATER SUPPLY NOT AFFECTED BY ODOR FROM DOMINGUEZ CHANNEL

California Water Service treats the water and tests it before it reaches the tap to ensure that it meets all federal and state water quality standards to protect public health that includes odor in the water. The most recent test results confirmed no elevated levels of odor in the water.

A decorative horizontal line of blue water bubbles, with various sizes of bubbles, spans across the middle of the page.

Los Angeles County Sewer Management District (SMD) maintains the sewer lines. Sewer lines have no connection to the Dominguez Channel or the odor incident. SMD recently performed a mainline cleanout and found no blockage.

If you experience discolored water coming from your tap/faucet, please call California Water Service:

(310) 257-1400

If you see discolored water coming out of a bathtub/toilet, please call Los Angeles County Sewer Management District:
